Project Development Phase
Model Performance Test

Date	10 November 2022
Team ID	PNT2022TMID32070
Project Name	Project – Retail Store Stock Inventory Analytics
Maximum Marks	10 Marks

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Screenshot / Values
1.	Dashboard design	No of Visualizations / Graphs – We have used 18 graphs in our project.
2.	Data Responsiveness	With this dashboard, an organization can move towards the sources for goals and away from perceived dangers.
3.	Amount Data to Rendered (DB2 Metrics)	We have rendered the dataset which helps in measuring useful quantitative data.
4.	Utilization of Data Filters	The dataset has been much useful in the process of examining a dataset to exclude, rearrange, or apportion data according to certain criteria.
5.	Effective User Story	No of Scene Added – We have added 8 scenarios in the user story.
6.	Descriptive Reports	No of Visualizations / Graphs – We have added 8 visualizations in our user story
